History Autodesk first created AutoCAD Product Key in 1982. Its main customers were the manufacturing and design industries. Its creation was spurred by the fact that none of the current competing CAD software companies at the time had a product suitable for an all-purpose use. In the ensuing years, AutoCAD Crack Keygen and its competitors continued to develop CAD software, with at least 10 CAD platforms eventually being available. At the time, CAD software was a niche market, and applications were produced mostly for the specific needs of the industrial, construction, and engineering industry. AutoCAD Cracked Accounts is generally considered to be the first general purpose CAD software application; its original release is recognized by the Smithsonian Institution as "the first mass-market CAD software." AutoCAD Cracked Version was originally written in NewCAD, and later rewritten in MFC and C++. AutoCAD Full Crack was originally Windows-only but also supports Macintosh. AutoCAD 2000 for the Macintosh adds AutoCAD's file format to the Macintosh platform. AutoCAD and many of its competitors began migrating to the Windows NT platform in the mid-1990s. AutoCAD continues to be released for Microsoft Windows and Mac OS X. The current version is AutoCAD 2018 for the Windows and Mac platforms, followed by AutoCAD 2019. AutoCAD for AutoCAD for Mac's was discontinued in 2018. AutoCAD LT for Windows is the successor to AutoCAD Classic, which was the first version of AutoCAD and discontinued in 2007. AutoCAD 2007 introduced an ObjectARX technology. ObjectARX is an automation technology, designed for application programs that access the 3D modeling environment from within other programs. Re-branding In 2004, Autodesk was acquired by Gartner, and a new logo was created. In 2005 Autodesk introduced a revised logo and visual branding, and gave a more modern, modernist feel to its products. In 2011, Autodesk changed the product's branding from Autodesk to Autodesk Project. Product names such as Autodesk Architectural Desktop, Autodesk Civil 3D, Autodesk 3ds Max, and Autodesk Revit were replaced by Autodesk Project. In April 2012, Autodesk announced the brand name "Autodesk Project" would be replaced by "Autodesk Revit." The change took place in June 2012. In 2013, ca3bfb1094
