## Kaththi Full ^HOT^ Movie In Telugu Dubbed 17

the decision to go for a dubbed version of the film was taken after the producers felt that a telugu version would not succeed in the current climate. "i think it is always a good idea to dub in a language. it helps a film connect with a larger audience. it may also give exposure to the language. i think it should be done. anirudh should not have to dub in a language. he should be able to speak the language. it is a tough thing to do. anirudh has made a sincere attempt to get his tamil language right," says radha, who plays the character of his love interest, in the film. [60] "it is a good decision.

the film has done well at the box office. anirudh is a name that has been taken seriously in the telugu cinema. it is a good move to release the film in telugu as well," says an industry source. [61] the dubbing of a hindi film into another language is usually a tedious process. tamil films, however, present a unique challenge. "the problem with tamil films is that they are written in tamil. there is no written equivalent in another language. a character that is written in tamil may look totally different when it is written in telugu," says anirudh. "if you are to dub a hindi film in telugu, you need to learn the language. a tamil film is different. it is easier to understand the script and the same character in both languages." [62] another interesting conversation in telugu with karthi was in 2014, when he was asked about his willingness to dub a hindi film. in a candid interview, he had said that he was not interested. yet, the same year he went to bollywood to dub the hindi version of buddhimaan as kaatru veliyidai. the remakes of the year were and are yet to be seen. it is unlikely that there will be any.
